

**PROFITENCE** is a boutique Corporate Finance firm in Cambodia that is focused on helping emerging businesses grow in South East Asia. We predominantly work in the Cambodia, Laos, Myanmar and Vietnam (CLMV) region.

**PROFITENCE** concentrates specifically on four business growth verticals that include:

- ✓ **CORPORATE FINANCE**  
Deal Structuring, Fund Raising & Asset Management
- ✓ **TRANSACTION ADVISORY SERVICES**  
Valuation, Consolidation, Mergers & Acquisitions
- ✓ **BUSINESS & STRATEGY CONSULTING**  
Turnaround, Growth & Operational excellence
- ✓ **CFO SERVICES**  
includes Financial modelling

Our core business expertise focuses in on the Telecommunications, Media and Technology (TMT) division. We do, however, provide additional services in the consulting, financial, manufacturing, pharmaceutical, FMCG, and logistics departments as well.

**PROFITENCE** is an independent firm interested in working with companies that are ready to make an impact through accelerated business growth. Whether your company is ready to expand and take it to the next level or you aren't seeing the business growth that was predicted: PROFITENCE can help you move your business forward.

We have successfully advised companies in the TMT sectors, financial services, and distribution houses. **PROFITENCE** is focused on the turnaround of companies with an objective of making them international standards. All of our senior team members have successful track records across multiple industries as well as in the advisory & consulting space. With a combined experience of our core team for more than 70 years, we have the capabilities not only in innovation and incubation but also in real world operational excellence within multiple markets.

Our strengths come from a strong mix of international experience combined with in-depth local knowledge of the technology and innovation space. We have developed well-established relationships locally, regionally and globally with many partners. We believe that we could help your business as well.
